

# Renovation roof drain

## Model C

— old roof drain

Other sizes are made to order

*The European Committee for Standardisation CEN has not defined a harmonised standard (hEN) for roof drains that would allow the product to be CE marked. The product suitability is verified with site-specific validation.*

## Renovation roof drain installed inside the old roof drain

- Made of acid-resistant steel or copper.
- Drains made of acid-resistant steel have primed flange.
- Includes a leaf grate.
- Outlet diameter should be 10-12 mm smaller than the inside diameter of the pipe in the old roof drain.

### Accessories

- Bitumen flange

### Maintenance instructions

Check and clean the grate. Other maintenance needs according to the roof maintenance book.
